Technical Director – Head of Classification Directorate  Vladimir I. Evenko

Amends Section 5, Part II “Hull Structure and Strength” of the Russian version of the Rules for the Classification and Construction of High-Speed Craft, 2013.

We hereby inform that on 1 July 2015 the corrected text of the Rules for the Classification and Construction of High-Speed Craft, 2013, shall come into force.

Para 5.3.9.1 of Section 5, Part II “Hull Structure and Strength” of the Rules shall be supplemented with the following definition of “ $\rho_y$ ”: “ $\rho_y$  is the inertia radii, in m, of the craft hull mass with regard to the longitudinal and transverse axes accordingly which pass through the mass centre of the craft (refer to 1.3)”.

It is necessary to do the following:

- 1) *Apply the provisions of the Circular Letter in the practical activity from 1 July 2015.*
- 2) *Bring the content of the Circular Letter to the notice of the RS surveyors, interested organizations and shipowners in the area of the RS Branch Offices’ activity.*
