Text of CL:

We hereby inform that in connection with entering into force of IACS UI SC 283 (Aug 2017), Part X "Boilers, Heat Exchangers and Pressure Vessels" shall be amended to read: New para 4.4.5 shall be introduced reading as follows: "For boilers with inherent fire risk in the air supply casing and supply ducts and in the flue gas channels and uptake, means to detect and give alarms at an early stage of fire shall be provided. Boilers with inherent fire risk in the air supply casing and supply ducts means boilers equipped with rotary heat exchangers having surfaces exposed alternately to air and flue gas. Boilers with inherent fire risk in the flue gas uptake and ducts means boilers equipped with heat exchangers using flue gases as the heating medium (e.g. air/water preheaters or economizers, etc.).". The original of IACS UI SC 283 (Aug 2017) in English is posted on the RS internal website in the Section "RS External Normative Documents"/02 IACS Documents/ND No.1-0221-283-E", as well as on the official IACS website: www.iacs.org.uk.

It is necessary to do the following:

1. Apply provisions of the Circular Letter during the review and approval of technical documentation for ships contracted for construction on or after 1 July 2018.
2. Bring the content of the Circular Letter to the notice of the RS surveyors, interested organizations and persons in the area of the RS Branch Offices' activity.
